The following notes on Self-Governance tribes have been provided by the Office of Self-Governance, Department of the Interior.

Absentee Shawnee Tribe of Oklahoma	Service population totals provided by the Department of the Interior. It is the Department's position that 1) the Tribe's service population estimate provided by the Tribe was not consistent with the Collier decision and that 2) the Tribe's total resident Indian population is limited to Absentee Shawnee allotted and tribal trust lands.
Cherokee Nation	The Tribe attributed a 25% service population increase from '95 to '97 to better counting methodology. Also, some duplication of data may have existed with data submitted by the United Keetowah Band and the Delaware Tribe of Oklahoma.
Citizen Potawatomi Nation	The Tribe's estimates are consistent with the Department's position that the Tribe's total Indian service population is limited to Absentee Shawnee allotted and tribal trust lands.
Eastern Shawnee Tribe	The Tribe's service population for 1999 reflects a 19.4% increase that can be attributed, in part, to the Tribe's increased radius of service area -- from 50 miles to 75 miles.
Fond du Lac Band	The Band's service population decreased by 42.3% from '95 to '97. The decrease is attributed to the non-enrolled family members who were counted in the 1995 report and not in the 1997 report.
Grand Ronde	The Tribe justified its 49.6% service population increase from '95 to '97 by attaching documents from the State of Oregon and the U.S. Census Bureau. In addition, the Tribe has been active in enrolling eligible members--hence, an increase in tribal enrollment of 29.8%.
Jamestown S'Klallam Tribe	The Tribe lowered the blood quantum requirement from 1/4 to 1/8 Jamestown S'Klallam blood. The result was a 96.3% increase in enrollment from '95 to '97.
Nation	The Tribe encouraged their adult member to enroll their children -- a campaign that resulted in an increase of tribal enrollment of 26.8% from '95 to '97. The Tribe's service population increased 356% from '95 to '97 because of the Tribe's decision to count all Indians in Kay County in 1997. In 1995 the Tribe counted only Nation Indians in Kay County.
Manzanita Band	The Band's service population showed a 19.8% increase from '95 to '97. The Tribe attributed the increase to children being born since 1995 and to the addition of non-enrolled eligible individuals who had requested to be included in the tribal rolls after 1995.
Mille Lacs Band of Ojibwe Indians	Increased employment opportunities caused members and other Indians to come to the Reservation for employment. The result was a 29.6% increase in the Tribe's service population from '95 to '97.
Modoc Tribe of Oklahoma	Because of eligible new families being enrolled into the Tribe since 1995, the Tribe's enrollment increased by 50.8% and its service population increased by 47.6% from '95 to '97.
Muskogee (Creek) Nation	Some duplication of data may exist with data from Alabama-Quassarte Tribal Town, Kialegee Tribal Town, and Thlophlocco Tribal Town.
Port Gamble S/Klallam Tribe	From '95 to '97, the Tribe's service population increased by 28.8% because of the influx of tribal members taking advantage of the improved living conditions on the reservation.
Salt River Pima-Maricopa	A booming tribal economy is attributed to the 25.3% upswing in the Tribe's service population from '95 to '97.
Confed. Salish & Kootenai	The 47.9% increase in the Tribe's service population from '95 to '97 is attributed to the Tribe conducting the labor force survey instead of the BIA or the Salish Kootenai Housing, as in years past.
Suquamish Tribe	The BIA's approval of the Suquamish service area by five counties has resulted in a 319.7% increase in the Tribe's service population from '95 to '97.
Alaska Self-Gov. groups	Data from Alaska Native self-governance groups was compiled by the BIA's Juneau Area Office.
